What's New for Summer 2010 "Kids College Clubs"

The Kids College Clubs will help students in grades 5,6,7 and 8 learn age appropriate higher level/technical activities under the guidance of a team of certified school teachers with experience and interest in teaching youth math and science concepts.

Sustainability Club

The four-day vacation club series will increase youth knowledge and awareness about the global ecological crisis, with the hope that this increased awareness will help moderate the behavior of future generations and inspire positive environmental and social change.

July 26 to July 29, 2010

Engineering Lego® Club

Lego® Engineering makes its debut this summer. The four-day vacation club series will focus on Lego® vehicles, robotics and FUN.

August 2 to August 5, 2010

Video Game Making Club

During this four-day vacation club series, students will learn how to control characters, objects, and outcomes in their game, then increase the difficulty level and add more features. Students can leave this class with their video game on a CD to take home and play on their own computer.

August 16 to August 19, 2010

Renewable Energy Club

This four-day vacation club series will provide students an overview of renewable energies including solar, wind, hydropower, biomass and hydrogen, and fuel cells, with hands on activities and fun projects.

August 23 to August 26, 2010
