Helping you make your way

That's the idea behind Bristol Community College. To reap the maximum benefit from your college education, you need opportunities to exercise your abilities in ways not always found in the classroom. And, you need some personalized attention to fulfill your educational and career goals.

We offer a whole range of extracurricular activities that can enhance your college experience, and the services that will support your educational progress and develop your potential for growth. The Enrollment Services staff and related support services are committed to helping you map out your educational road, make the transition into college, complete your goals successfully, and find employment or the right place to complete your education.

The key word here is personal – we want to work with you to make sure that your education is everything you want and need.

There is more to college than just lectures, papers, and classes. The best education is one where you are challenged to grow in all areas – physically, socially and intellectually. And sometimes you just need someone to lend some support in that process – someone who cares about you and wants to help you become successful.

WHO GOES TO BRISTOL COMMUNITY COLLEGE?

Students at BCC come from every circumstance, representing every segment of the community at large. Our students tend to be older than the traditional college age, because many interrupted their education and are returning to start again. But there are many recent high school graduates, too, who take advantage of the affordable costs they find at Bristol Community College. More than 80 percent of our students are in the first generation of their family to attend college.

Approximately 11 percent of our students represent racial minority groups. Nearly eighty percent of our students work while attending school, and almost 60 percent receive financial aid. Because of the many responsibilities our students have in addition to school, BCC specializes in helping you fit educational goals into your busy life.

Don't think you need to have your life planned before you come to BCC. Enrollment Services and Advisement staff can help you to determine your interests and strengths, either before or after you begin your education.

STARTING YOUR JOURNEY

Right from the beginning, BCC is there to help you adjust to life as a BCC student. You can find all these services in the new Enrollment Center in the Commonwealth College Center, Fall River Campus. The Enrollment Center provides registration and enrollment-related services for credit and non-credit enrollment. The Enrollment Center processes all registrations, course change forms, program changes, enrollment verifications, transcript requests, college withdrawals and tuition waiver requests. Applications for admission to the College and Financial Aid may also be obtained through the Enrollment Center. Enrollment Services are also available at the New Bedford Campus and the Attleboro Center.

Admissions: You start with Admissions, where you can get help in selecting an appropriate program. Our advisors work with you to evaluate your interests and educational experience. If you need preliminary courses before enrolling in a program, we will make recommendations for taking them. (Contact Admissions for detailed information.)

Financial Aid: The Financial Aid office provides assistance for all students in covering the cost of college. Staff members will help you file appropriate forms and direct you to alternative funding sources, including scholarships and loans. (You will find more details in the Financial Aid section.)

Placement Tests: All students entering a degree or certificate program are required by the Massachusetts Board of Higher Education to take assessment tests in order to ensure appropriate placement in classes. The tests assess students' skill levels in reading, writing and mathematics. The results of the assessment, in conjunction with academic background information,

are used by college advisors to help students choose courses prior to registration. Should developmental work be necessary, you'll receive help to select the courses you need. For Attleboro, call ext. 3527.

Orientation: Orientation, offered before the semester begins, gives new students an opportunity to learn about their rights and responsibilities, as well as the services offered to them by BCC. New students also come to campus prior to the start of classes to select courses and register with the help of an academic advisor.

Academic Advising: Before you start your first semester, you will meet with an advisor to plan your first semester's schedule. The advisor will ask questions about your future plans, interpret your placement test scores (English, reading, arithmetic, and algebra) or credits transferred from another accredited college to create your class schedule.

If you are in a degree program and taking more credits in the day, you will be assigned an advisor to advise you before registration each semester. Students are assigned advisors based on academic program and the advisor's specialty. In some instances, students are assigned to a staff member in the Advisement Center. At most times of the year, walk-in advisement is available. For more information, contact ext. 2777. For Attleboro, call ext. 3527.

Advisors assist students with short term academic planning (course selection) as well as long term plans most often related to a student's career and/or transfer goal. Additionally, advisors assist students in learning about the numerous student services on campus such as academic tutoring, co-op experiences, career planning, transfer advising, and job placement.
