

**Subject: System Maintenance: Thursday, August 6, from 5 - 9:30 a.m. & 4:30 - 9 p.m.: Technology Network Systems**

August 4, 2020

Please be advised that on **Thursday, August 6, from 5 - 9:30 a.m. and 4:30 - 9 p.m.**, all of the college's technology systems, including but not limited to Bristol's Website, Office 365, the Intranet, Banner, accessBCC, Argos, Online Learning (Blackboard), Degree Works and other systems that use your Bristol network account will be temporarily powered down. This is in order to perform an electrical upgrade in the Library (A building), on the Bristol Fall River Campus.

While no further disruptions to the college's network systems or services are expected following the completion of the planned system maintenance, the college would like you to be aware of the temporary shutdown, in the event that you experience systems issues during the maintenance period.

Thank you for your continued patience as we complete this important project.

If you have any questions, please call the college's facilities department at 774.357.2533, or Information Technology Services (ITS) at 774.357.3333.

Thank you,

Facilities and ITS
