

Dear Parents,

Beginning this summer, in our continuous efforts to provide the best possible care to our students and staff, Kids College is partnering with SchoolDoc.

SchoolDoc offers online registration and an electronic health record system for schools. Their system will help us consolidate and integrate student registration and health information into a centralized and secure location.

The security, confidentiality and privacy of your student's personal health information will always be protected. Only Kids College staff will have access to student health information as needed, and the SchoolDoc site is secure, encrypted and password protected.

Once you sign up for a SchoolDoc account, you will be able to register your student online. You will then receive additional information about how to complete your student's health profile. You will receive periodic notifications from SchoolDoc if you have outstanding required health information.

We are excited to continually evolve, building safer, more productive and more efficient systems to create the best experience for you and your family!

We can't wait to see you this season,

Meaghan Rivet
Kids College Associate Director
