Bachelor of Science Business Management

The Bachelor of Science in Business Management program is designed to provide knowledge and skills necessary for managerial positions. Through a combination of theory and real-world applications, students will develop competencies needed to determine and implement key strategic management decisions to align resources, improve communication, increase productivity, identify cultural challenges, and develop plans to overcome the challenges in the world of global business.

Program Outcomes

- Communicate effectively in the business environment using interpersonal, intercultural, and managerial communication skills.
- Assess operational and financial challenges using tactical, strategic and analytical skills.
- Evaluate key theories, models and applications within the business context.
- Identify leadership styles and best practices for leading the individual, the group, and the organization.
- Analyze businesses and organizational situations using ethical and socially responsible approaches to decision making.
